How to calculate your 2017 Ambetter from Health Net plan's monthly premium rate

Find your individual rate

Finding the rate that applies to you is easy:

1. look for your rating region in the rate chart for your plan;
2. select your age; then
3. find your rate.

Find your family rate

The medical rate is subject to the Affordable Care Act (ACA) rules, which states for children under 21, no more than the three oldest children covered on the plan will be taken into account. Please see the following examples to assist you in calculating your family rate.

Example A: Family in Area 4 on Secure Care 4

	Age	Rate
Subscriber	45	\$746.59
Spouse	35	\$631.81
Child 1	19	\$328.31
Child 2	10	\$328.31
Child 3	21	\$517.03
Family premium		\$2,552.05

Example B: Family in Area 4 on Secure Care 4

	Age	Rate
Subscriber	45	\$746.59
Spouse	35	\$631.81
Child 1	20	\$328.31
Child 2	19	\$328.31
Child 3	14	\$328.31
Child 4	10	\$328.31
Child 5	7	\$328.31
Family premium		\$2,363.33

In this example for a family of five, only the boxed rates are calculated, since only the 3 oldest dependents are counted.
